**DETAILS** I was standing in the crowd at Route 91 Harvest fest with my brother & his friends. I was excited to see Jason Aldean for the first time. I heard what I thought were firework (the little red annoying ones), then it stopped. The Band continued to play and I disregarded the sounds. My brother was looking in the direction of where the sounds came from but also thought it was firework. Seconds later I heard the second round still assuming they were fireworks but then the Band ran off the stage. I saw a woman in front of us like 5 ft in front a little to the right I thought she had just fainted. It wasn't till I saw another female 15 ft (give or take) on the floor with blood covering her face when we realized it was gunshots. My brother threw me on the floor and began to shield me. People began to run in a panic stepping over us. A girl that was wounded crawled over me and also shielded me when my brother tried to check if she was okay. We were began crawling to get out. When the shots stopped we stood up and ran. When they started we threw ourselves on the floor off to one till we made it out.

**DETAILS** On Oct 1st 2017, My brother [REDACTED] and I planned to arrive to Route 91 around 5pm, due to traffic. We got to the festival around 6:15pm. We were having a great time enjoying great music and company. Around 10:00pm we both went headed towards the bathrooms. About 8 minutes later we started to hear loud cries and what sounded like fire crackers. It took us a few seconds before we actually knew what was going on. At this point we saw a huge crowd of people running towards us. At this point chaos was everywhere due to more gun fire. My brother and I started to see how serious the problem was when we started to see people with gun fire wounds. AT this time we decided to flee for our safety. The whole place was in chaos and we saw a few people holding bullet wounds, others were helping others and at one point we saw a woman laying at the ground not moving. My brother and I ran

We tried to return to scene to help others, but by this time we were told to leave, so we ask fellow victims if they need help. Everyone I saw was in shock and many didn't understand us. They were just running for safety. My brother and I decide to head home. We arrived safely at home around 10:30ish to turn on the tv and see what had really happened.

DETAILS I was attending the Route 91 Festival with my family last weekend. On Sunday evening around 10 pm, shots rang out. I grabbed some people around me and we proceeded to the east gate (towards airport) as we got closer someone outside said shots were being fired so we turned and headed back east towards the back of the event. At this point I was separated from my family so I grabbed as many people as I could and we ran behind the Tropicana and in to Hooters Casino on East Tropicana. When we got in to Hooters, some staff members brought us in to the kitchen to hide. While hiding in the kitchen, a group of people stood in yelling that there was a shooter inside Hooters. We then pushed open the back door (receiving) to run. At this point I dropped my phone but I wasn't going to stop to pick it up. I came across two girls. One was having an asthma attack, and I helped carry her to the intersection of Koval and Tropicana. Here, I stopped an airport shuttle and we loaded it up full of people to the airport for safety. From here, we took a taxi to my house.

After I got home, I got in to my car to go find my family. At the intersection of Durchnell and Las Vegas Blvd. A man in a white pick up stopped me and told

**DETAILS** My friend and I were on the right side of the stage, closest to Las Vegas Blvd. We were pretty close to the stage, my friend facing the stage and I was sideways to get a better view. Jason Aldran had been singing when we heard what we thought was firecrackers. Everyone was looking to see what happened but the music continued. It happened again & some people ducked and some people kept saying it was a firecracker. It didn't make sense because I didn't see smoke. I remember thinking they need to find the guy & stop him. I think the third time we heard it Jason Aldran stopped playing & ran & we all realized it was bad. I looked to my left & realized my friend [REDACTED] was on the ground. There were people on the ground with him & I asked what happened. Someone said stupid he has been shot. I immediately fell to the ground next to him as people ran over us. I didn't know what to do & just kept calling his name. There was still shooting and I was texting my husband that he needed to come get me & what had happened to our friend. Someone came to me & told me I needed to run for safety, so scared I left my friend & ran to jump the middle barrier. After jumping over both arms sawed told me to get down as we heard

More gun fire. He told me to run for cover but I told him I can't leave my friend. He asked for his name & I gave it to him as he tried calling over to the other side for him. I knew he wouldn't respond so I ran toward the stage & to the left. I saw an opening & went back between the barriers to try to get back to my friend. As I ran I saw people coming out from under the stage & others being carried out. I jumped back over to the right side to my friend. When I got to him a man was holding his head. I told him he was my friend & he asked for his name & started talking to him telling him to hold on. Another He told me to try to find help. I got up & looked around but there was no one. Everyone was helping others on the ground. I finally found someone & they came back with me. The two guys talked about my friend & that he was shot in the back of the head. One wanted to move him the gentleman holding his head said no cause as long as he was there he knew he was breathing. They had me elevate his feet for a little while as they told me to just be calm & breathe. Finally another guy came up & asked if I was ok. When I replied yes he told me I really should run for safety & that they would take care of my friend. It took a little while but I finally listened. I hopped the barrier again & ran/crawled along the side of the left stage to the back. In the back another woman encouraged me to go with her as we saw people in black going toward the stage. I made it to the exit & watched as they were getting injured out. I had been getting calls from family & friends telling them I was ok but didn't know about my friend. I was watching to see if they were bringing him out until my husband called & urged me to meet him somewhere. He said the radio said there was still a shooter somewhere. I walked to Hooters with some other people & found my husband. We waited for a little while then drove to Sunrise hospital to try to find out about our friend.

## DETAILS:

I WAS AT THE ROUTINE OF concert Sunday evening with a group of my friends, while I was watching the concert I heard what sounded like fire crackers go off near me my hand a few foot away, then felt my hand get very hot then I fell to the ground. I did frozen thru all the gunshots which took like a lot time. My cousin made me get up and run while I was covered in blood I had no idea had been shot at that point I only saw the blood. I ran and hid for cover and kept running to avoid to the ground everytime we heard more gun shots I finally made it out of the venue and started helping people jump down from a fence as they were running for their lives as well while I reached up to help people I got shot in the left hand shot through with a bullet on my wrist & bleeding all over I tried to run into two separate cashiers as I was entering people were running everywhere saying out there's a gun, there's a shooter in here. My dad finally showed up to a nearby gas station near them to take me to my friends up and get us to desert springs hospital. I was having an anxiety attack and put on oxygen and received 4 stitches for my wound.

I got prescribed an antibiotic & pain medication for my wrist. I've been to my primary doctor to receive meds to help my anxiety attacks and to help me try to rest and get some sleep at night. All I remember seeing was everyone scrambling to get to safety and try to help each other. I saw people purposefully running uncontrollably and fighting for their own lives. I heard screams of desperation and terror. This with a group of people miles away.

JT: And your phone number please.

[REDACTED]  
JT: Okay. Um, this, uh, voluntary statement is in reference to event 171001-3519 which occurred on October 1, 2017 at 3950 South Las Vegas Boulevard. Okay, [REDACTED] if you can run through the events as best you can remember.

[REDACTED]  
Um, on Sunday evening I was sitting on the right side in the grass area, um, from the stage at the country festival. Performer Jason Aldean had just begun a few songs. A couple songs in we heard, um, what sounded like fire- gunshots being fired. Um, it was about h- we saw the flares behind us and kind of in front of us. Not sure where they were coming from or who was firing them. So we - my friend [REDACTED] and I - we, um, decided to start running out 'cause then we realized what they were. So as we were running we decided everyone, um, come to the ground as the gunshots were fired ag- like - they were being fired again and so we took cover to the ground. I laid on my back and as I did, um, a couple moments later I was hit in the leg. As, um, so we decided to get up and I'd push forward and we'd go find help with - from an ambulance. But then the gunshots were still being fired and we saw a shelter underneath a food truck at the festival so we, um, we were small enough to fit underneath with a dozen other people. Um, we all took cover under there until we knew it was safe to come out. Um, this older gentleman w- um, I'm not really sure how much longer it was but this older gentleman, um, wearing a US Navy hat, um, was telling us that the - the shooter had run out of ammo and we were safe to leave

but we were, um, but we needed to leave the - the premises immediately. As we were leaving, um, seeing that I was wounded and it was really hard for me to run we saw a group of people near a cop car and an ambulance being taken care of so we, um, my friend and I decided to stay with that group and get help. Um, she stayed with me the whole time. Um, considering it was just me and her in the- a town that we've never been to. Um, so as I w- I was laying on the ground getting help. They were trying to keep me conscious. Making sure I was doing okay. Uh, as soon as, um, there was this truck that drove by carrying dozens of people on the tailgate who were also wounded. They were going to the hospital. Um, and they took us immediately here, um, so we hopped on board. My friend was not wounded but she - like I said she stayed with me the whole time. We got here. Um, I immediately was receiving help. Um, and after seeing the wounds and getting a couple of x-rays done they noticed that, um, the gunshot that was in my leg had actually, um, the bullet had gone into my stomach wounding my, uh, smaller intestines and I had to go into surgery immediately. Um, when I woke up from surgery, uh, I realized that everyone was informed of what was going on. I called families and my parents were on their way so, um, put my friend on a plane as soon as my mom got here, um, so that she could be home safely with her family and while I'm stuck here receiving treatment to get better.

JT: And you said your friend's name was [REDACTED]?

[REDACTED] Yeah. [REDACTED]

[REDACTED] Um, there are two spots in my leg so I - I'm not really sure how it happened but one spot is a graze. Um, I'm not sure if that was just a different bullet but the other one definitely was, like, where the bullet went in.

BE: And was that all at the same time or was it during different...

[REDACTED] Um, it was all at the same time. In fact I felt the graze more than I felt the bullet because - not really sure why actually but I didn't even know I was hit lower in my leg. Um, everyone kept saying that I was. All these people were like, "Oh she's hit in the leg." I'm like, "No, I was hit higher up." But apparently when I got to the hospital I was like, "Oh, I was actually hit in my leg."

BE: Mm-hm.

[REDACTED] Twice. So.

**Statement Regarding Incident:** We were jamming out like Jason Dean and heard what sounded like fire crackers. The people in my group and my daughters were looking around in confusion. All of a sudden the security guard had been shot in front of where we were standing. Everyone started yelling get down, get down. We all proceeded to get down and ~~break~~ things were flying by us. As soon as we got told to run we ran. As I was running something hit my arm. I ran out as fast as I could to find my daughter and get to a medic.

Seconds later I looked up to the right side of the mainstage towards Mandalay bay because that's where I heard the sound come from. Seconds later I heard more shots fired and people running in shoring me towards the ground. Since there was nothing to hide behind me & my two friends ran as fast as we could towards the exit near the water station & luckily hid behind multiple things semi truck, large storage units & then eventually ran to the Caesar's Palace private jet warehouse to hid until help came.

**DETAILS** I was at the concert facing the stage I was on the right close to the VIP seats. Once the first shots rang out I thought that they were fireworks but I knew the direction that they came from. Once the second shots rang out my group and I got down on the ground. Once that was done we stood back up until he started to shoot again so we got back on the ground. That is when I got hit in the lower back laying over my girlfriend. After that round was over we all got up and ran towards the exit onto Koval close to the church. We wanted to get to Harter's and once we got close to the entrance there were people running out saying that there was someone inside with a gun. So we waited some more outside then ran to MGYM to get into my [REDACTED] girl friends Aunt's [REDACTED] car and she took me to Sunrise [REDACTED] Hospital where I was treated for a gunshot wound to my back.

**DETAILS** After photographing the first 2 songs of Jason Aldean concert and returning to media tent with other photographers, I heard a few gunshots coming from stage area. Security said it was only fireworks, then more louder shots and machine gun fire started and kept going sporadically as more and more people started running away from stage and thru media tent. Power went out and people were running towards parking lot on east side of venue. It was taking cover with people behind cars in dirt parking lot and then when shooting sounded closer I got into my car and started driving away when other people and one injured guy jumped into my car. We got to first hospital but was too full with victims so we drove to Sumnerton hospital to take guy who was shot.

DETAILS On Sunday October 1<sup>st</sup> I was attending the route 91 country concert. At approx 10pm or so I heard pops, I thought it was fireworks. I looked at my friend after the second round confused. Then I saw Jason Aldean run off stage and chaos started. We all started running for cover. I was by the side of the stage and on the floor. Finally an officer and festival security ushered us behind a tour van and told us be quiet so we can stay safe. I layed there for about 20 minutes or so, while on the phone with my mom scared for my life. Finally we were told they got the shooter. But they were not sure if there was any more but then they let us run. I made it to my car and got out as fast as I could.

DETAILS On October 1st 2017, I was working at the Route 91 Festival as part of medical crew at the event. I was at the Neon Lounge / VIP area when the first magazine was fired. While moving forward to assist people I threw my backpack off to be able to move quicker. I have not seen my backpack since the night of October 1st. I have recently received credit alerts that large purchases have been made with the credit cards that were in my wallet that was in my backpack. I avoided canceling my cards because Metro said they would be able to return it as they gathered evidence from the event and since my wallet had my name and address in the backpack. Inside my wallet I had the following: Social Security card, drivers license, USAA debit card, USAA American Express, Capital One Visa, military ID card, SNHO EMT card, Military Veterans card, VA Healthcare card, and \$5 cash. On October 2nd, 2017 Capital One alerted me of a charge of \$654.88 at Best Buy. I did not have my credit card at this time and did not make this purchase. I alerted Capital One of the fraudulent charge and they have cancelled the card, issued new ones, and put an alert on my credit.

Since I have also alerted my bank to cancel all cards and send new ones. They instructed that I had 6 failed attempt logins on October 2nd as well but there was no successful login. On October 4th at approximately 5 am, I received an email stating that I had recently opened a line of credit with Paypal. I did not open a credit line nor have had a Paypal account. I alerted my identity theft service (IDNotify) who got me in contact w/ a Paypal who has since closed that credit line. They also notified me that on October 4th an online application to Best Buy requesting to open a line of credit was done. We contacted Best Buy and Best Buy stated they closed the application.

The ~~other~~ other contents in the backpack were; car keys to a 2007 Honda Accord, blank Anko portable chargers, 2 silver iPhone chargers, cables, and few other miscellaneous items that I can't remember at this time.

DETAILS On Sunday October 1, 2017 I was working as a Bartender in the Route 91 Country Festival. I was located at the Barrell West Bar. My cash register was facing east towards Giles St. I was the 2nd cash register to the right if you are facing east. At approximately 10:03 pm I was seeing 2 shots of fireball to 2 white females and had finished receiving their cash to pay. I closed my register when I heard multiple gunshots which where coming from the right of me where the Neon bar is located. Jason Aldien was performing his third song and was a few seconds into it when the shots where heard again. The lights on stage went black after Jason Aldien ran off stage. I saw people starting to run and crowded into the bar. I paused a moment to evaluate the scene when more people started to scream, cry, yell and jump over the bar. I heard people saying "They are shooting get down, stay low, run". I immediately directed people towards the back storage area located behind barrell west bar facing Las Vegas Blvd. I began to crawl and people trampled over me, threw tables, chairs anything that could be used to cover themselves. Objects small & big where flying around hitting people and I could see as I was directing people to the back storage bodies falling at the grass area near the stage. I could hear more bodies falling down from the Lasers Bar area which is to the right of our bar. I went

Bent into the storage crawling & staying low to the floor when a man about 6'2 white pulled me near him and a white female 5'3 pulled me next to them by the drape of the storage. He quickly grabbed the pallets that where around us told us to get us to the ground & began to barricade us in the corner. The couple were celebrating their 25<sup>th</sup> year anniversary. As we where on the floor we heard two shots getting closer and closer. The crowd of people who where in the storage began to scream and say "They are coming". People began to run out of the storage area and came under the tarp. The couple & I pulled more people into the storage before we headed out of the storage. At 10:08 pm I called my husband and let him know what happened. At 10:23 pm the shots stopped and we / (the couple & I) where barricaded in the storage. At 10:28 pm we didn't hear anymore shots so we headed Northeast towards the bleachers located on Reno Blvd. stayed under the bleachers with a table & pellet over us. At 10:38 pm we followed a crowd towards behind a food truck and headed toward the exit on Gile which was gate 6. There we saw Metro with guns pulled out directing us to keep moving. I saw dead bodies on the ground, people bleeding from their necks, thighs, ribs, arms, face, etc. At about 10:46 pm, my husband was on Gile street & headed North. He had come to the site to help. As I approached the vehicle he had people in his car with gun shot wounds. He took them to a medical tent located by the airport on Gile street. He told me and the couple to keep walking and he would come back. We continued & went into the church fence to lay down & stay low to the ground. My husband helped a few more people that were shot until metro blocked Gile street. At 10:46 pm the couple and I began to walk on foot towards the Travelodge. My husband picked us up at 11:00pm and we headed east away from the area.

## DETAILS

On Oct 1 I was watching the Jason Aldean concert at the route 91 music festival. I was with my friend [REDACTED]. After a few songs, I think 3 or 4, we heard strange loud popping noises to my right and behind us. We were standing to the right of the stage, about half way between the center walkway and VIP section. We were about 30 meters back from the stage. After the first "pops", there was some confusion as to what was going on. A few people said "it's just fire crackers". Then there were more pops & smoke to the right by front of me. Then Jason Aldean stopped playing & I was looking around. I remember my friend [REDACTED] looking at me & saying "Its shots, [REDACTED] been hit, get down". [REDACTED] we all layed down & continued to hear pops & screaming of which point people started to run. I ran toward the center "walkway" away from the stage. I fell right before the fence with my friend [REDACTED]. I had no idea where [REDACTED] last [REDACTED]. I jumped the fence and hid for a while. Through the fence I could see [REDACTED]

After hiding for a minute I ran east across the grounds, through the bushes to a [REDACTED] I continued to run until I reached the MGM. [REDACTED] called me & let me know that she was OK & [REDACTED] was in an ambulance en route to the hospital. [REDACTED] was able to get a hold of her mom, who called me & let me know she was also safe. I texted my mom @ 10:32pm letting her know I was alive. **DETAILS** On October 1<sup>st</sup> 2017, at approximately 2208hrs I was texting while I saw A) door was on stage where I heard a ring of what I said allured sounded like gunshots. The people around me said fireworks but then a moment later we heard it again which was when I saw the Board flee the stage, I yelled out to get down and huddled on the ground while others ran. The gunshots continued as people fled & were screaming. I saw people not getting up off the ground by the metal rail which runs to the center. Staying low I ran to them and found a female with a bullet wound in her shoulder. A male gave me his shirt and I held pressure, I laid over her when the shots began again. Once I heard them stop myself & others lifted the female & carried her to the gate by (Pensacola). I then went back inside and assisted, in my way I could until only myself and a few other off-duty responders remained. We exited out onto Pensacola where we <sup>were</sup> assisted paramedics and loaded injured into trucks and were sent to UMC. Everyone else was asked to head towards Hooters Casino. ~~Everyone left but us~~

**DETAILS** We were working the event that weekend. Our supervisor let us off early so we decided to watch the concert for a couple of minutes, then we decided to leave. As we were walking along the fence we heard gun shots. We didn't think they were gun shots, we thought it was apart of the song but then people began to hop over the fences and run out the gates. I asked a lady what was happening and she said there was a shooting going on. I then looked down Mandalay Bay Blvd and I saw cop cars and people running away. My friends and I began to run towards the employee parking. The parking was next to the airport so the echos of the bullets made it sound like if there was some other shooter in the parking, but there wasn't. We kept running towards the car and once we got in I drove away and took a left on Las Vegas Blvd and my friends were

## FEDERAL BUREAU OF INVESTIGATION

Date of entry 10/07/2017

[REDACTED] date of birth [REDACTED], address [REDACTED], phone number [REDACTED], was interviewed at SUNRISE HOSPITAL located at 3186 S Maryland Parkway, Las Vegas, Nevada 89109. After being advised of the identity of the interviewing Agent and the nature of the interview, [REDACTED] provided the following information:

[REDACTED] was eight feet from center stage when he heard seven to eight full-auto gunshots go over his head and strike near the area of center stage. The gunshots sounded as if they originated from a considerable distance from the stage. The shots that followed seemed to strike all over the place as if the shooter were "spraying" the crowd. The gunshots also sounded like a larger round, possibly 7.62 x 39 ([REDACTED] served in the Marine Corps and was familiar with the sound of small arms gunfire).

A brunette female standing three to four feet behind [REDACTED] was struck below the collarbone. [REDACTED] applied pressure to her wound and was assisted by an off-duty police officer. [REDACTED] and the off-duty officer helped the victim over a fence and into a pickup truck. [REDACTED] then found another female victim who was shot in the sternum, applied pressure to her wound, and then helped her into the pickup truck.

[REDACTED] assisted two more female victims; one who was shot in the mouth and hiding under the stage and another who received wounds from shrapnel. [REDACTED] guided them to the pickup truck as well. [REDACTED] estimated that the shooter reloaded his weapon twelve to fifteen times before the shooting stopped.

[REDACTED] then assisted police officers and other emergency responders by directing victims to EMS vehicles in order for them to be transported to local hospitals. After helping to load victims into multiple EMS vehicles, [REDACTED] was advised by police officers that he could clear from the scene. [REDACTED] then responded to SUNRISE HOSPITAL in search of one of his friends who had also attended the concert and was missing.

We were standing at the center bar at the Main Stage, heard some loud noises. I did not realize it was gunshots until i looked next to me to see a lady shot twice in the stomach and leg. Chaos ensued and people started scattering, and I heard what sounded like nonstop machine gun fire, at least 100 shots all around us. We evacuated to a helicopter rental shop at the airport.

The following is the transcription of a tape-recorded interview conducted by DETECTIVE D. ZIVULOVIC (DZ) on 10-03-17 at 1743 hours. Also present is Investigator L. Pope (LP), P# 4000.

DZ: This is Detective Zivulovic, Las Vegas Metro Police. This interview is being conducted with [REDACTED] Investigator Lisa Pope is also present. The date on the interview is October 3, 2017. The time of this call 17:43. Okay [REDACTED]

[REDACTED] can you - can you tell us what happened?

TG: Yeah, I mean, do you want to hear everything or what?

DZ: Long story short. Absolutely.

TG: Okay, um, I was parked on the left side of the stage behind the designer stuff (unintelligible) area. Uh, when it started going off, everyone thought it was speakers

so no one can move. He played - he kept going for a little bit. Then about 15-20 seconds of him doing it, uh, he took off running.

DZ: Okay.

TG: And that's when I started hearing, uh, some screams.

DZ: Okay.

TG: Uh, at that point, uh, realizing where I was at, I knew it couldn't be on the left of me, to the - to the west side of me at all. Uh, so I looked up and did see that it was, uh, well not see but I - I could tell that the fire was coming from, you know, the right side of the Bay. So I started (unintelligible) towards Mandalay Bay.

DZ: Okay.

TG: At that point I told the two girls I was with just to get on the ground because there was bars stuck in between after he was playing.

DZ: Whe- where were you in reference to the stage?

TG: Yeah so if - let's say the stage is, you know, directly in front of me, I'm on the left side. So I - the east side.

DZ: Okay.

TG: Um, you know, like, 'cause they have stuff in the center.

DZ: Okay.

TG: Uh, like, bars and stuff and so you get really close.

DZ: Okay.

TG: I - but I was, you know, a couple hundred feet back.

DZ: Okay.

TG: Uh, so when I realized the gunfire was on the west side, I just laid down here and, uh - uh, at that point I took off running towards the west side, uh, towards the gunfire. I - I honestly believed that he was in the event, uh, in the festival. Uh, at that point there was a lot of - a lot of craziness. Everybody was running around screaming. Uh, a few - grabbed, like, a couple guys and was looking forward to - at that (unintelligible). A lot of the railings were making it difficult for people, uh, to be honest, because on that right side - I mean, knowing where he was at now, everybody was just (unintelligible). I mean, it was bad. Um, so everybody was trying to dive over these railings, so we were just kinda throwing guys over the railings. Um, once that cleared out a little bit, uh, we went a little further to the west looking for the shooter. Um, at that point, to be honest with you, we almost (unintelligible). Uh, i- it's just was nonstop rounds going off, you know, but we weren't really seeing him. That's what was trippy about it. Uh, and I was so zoned in I didn't realize the bodies at the time.

DZ: Right.

TG: Uh, so I ha- this is the part that I told the other cops when I got to the hospital. At that moment we were - literally said to each other, "This is fate," to a couple guys, and I

looked up at Mandalay Bay and I swear I saw gunfire coming out around fifteenth to twentieth floor.

DZ: Okay.

TG: Like, not where the windows were broken.

DZ: Okay.

TG: It was towards the center of Mandalay Bay where it splits, you know, and it was 15 to 20 floors up. And if you watch videos, I - there's, like - I can see it. Um, he was perfectly in sync with the sound of gunshots. Uh, at that moment when I saw that, uh, it - at that very moment I knew (unintelligible). Uh, so I - from there, um, I - I kinda - I dragged myself off to the side 'cause no one could listen. Uh, but everybody was just kinda zoned in. Uh, so a couple of, uh, two - two young women actually helped me with the searching. They said they were off duty cops (unintelligible). Uh, they threw a belt around my leg. Uh, they got some guys to carry me out. Uh, at this point it was dead in between the noise of all the firing. Uh, and it was cleared out at this point.

DZ: Right.

TG: Um, so we ran out and they threw me in the back in the back of a tow truck. I was on Las Vegas (unintelligible). Uh, there must have been 20 bodies in the back of this tow truck. It seemed as if a couple had, you know, already passed.

DZ: Okay.

TG: Um, so I was in there and we were just trying - they drove - seemed like it was a quick drive. They drove two paramedics and fire trucks that were on the middle of Las Vegas Boulevard somewhere. Um, I got out of the tow truck and laid down. Um, and I kinda waited for them to just - to go to the people that were in more critical condition. At which point they came over to me and then, uh, they, uh, my shirt over here was already gone. It was just - it was covered in blood (unintelligible). Uh, they came up to me and they cut my pants and boxers off so they could - yeah. So, uh, that was literally out in the middle of Las Vegas Boulevard. Uh, that's when they gave me, uh, they gave me some morphine, and, uh, they wrapped me up (Unintelligible). I did tell some officers, uh, we - on the boulevard as well as when I got here that I - I swear I saw gunfire coming out of the - I don't know how.

DZ: Okay. Wh- what time do you think did you, uh, did you hear the gunfire first?

TG: First? Um, so Jason Aldean was on I believe 9:30ish.

DZ: Okay.

TG: Uh, and I can double-check that because I took photos and posted it.

DZ: Okay.

TG: Um, I think he was two to three songs in.

DZ: Okay.

TG: Uh, it was probably a little before 10:00-

DZ: A little before 10:00, okay. How many - how many gunshots did you hear?

EVENT#: 171001-3619

STATEMENT OF: [REDACTED]

TG: You know, that's the part where I'm - I kinda messed up 'cause I - like I said, I turned a little so insane that I wasn't paying attention to the gunfire. I was just trying to get people out of there.

DZ: Sure.

TG: But I - people kinda laughed at me 'cause I thought I heard maybe 100 to 200 rounds and it turns out that over 700 shots rang. So, you know, just thousands of rounds. Um, so that part I - I - I couldn't give an accurate description about that. Um, it did - it was weird but I think it was 'cause of the echo or what not. It sounded fake. No one - no one - I mean if you look at the videos - and probably standing right there towards the end there were literally guys who were just standing in the open right there looking at each other like oh this was a big break, right before I got shot, which is so weird to me. I - I don't know what they're trying to say, or what gun he had or what not. But there's no way he could maneuver a damn AK from the 32nd floor of Mandalay Bay, through the lake, on a flat angle. It's not possible. My leg - I mean if you look at the wound, it's slightly down. It goes in here and goes out here. That didn't come from the 32nd floor of Mandalay Bay, or was it an AK.

DZ: Okay is there anything else you can tell us that would help the investigation?

TG: Um, for me personally what I saw, you know, but I - I just - for me what I was stressing to the police officers that, uh, that, uh, came in there is that I - I saw gunfire perfectly in sync, uh, with the noise 10 to 20, 15 to 20 floors up - 10 to 20 floors up, um, more towards the center. And - and real quick, it did seem weird that even with

all that noise that literally no - towards the end nobody was around but maybe 15 guys or so were standing right there, that we saw no ammunition, no gun, nothing hitting anywhere, nothing and then all of a sudden I just got hit with one. I feel like we would've noticed hundreds and hundreds of rounds come out (unintelligible).

DZ: This will end the interview with [REDACTED]. The end time of the interview is 17:52. We're off record.

**DETAILS:**

I was on my break when I thought I heard fireworks. I looked outside & we both thought the sound like hotel hearing it & saw people running & could hear the gunfire. I told my coworker that they weren't fireworks & told her to run. We ran along the path where everyone was running, I looked behind me & I could see the smoke of the gunshots from the hotel. So we ran. I saw people falling as they were running, I saw them get hurt & they were bleeding trying to get back up to run away. We ran & entered into the Tropicana Hotel. I saw people on the floor with blood, people who looked like they were dead. People all over the ground. When we entered the hotel people were placing their towels in the air, so I asked a woman why we were doing this. She said that she didn't see the victims. I found my coworker & told her that if I found someone we fell that she should know we there so she could escape. I looked around & saw people with blood all over their bodies, they were injured, they were crying & screaming all over. We hid in the hotel bathroom & we found many people who were shot, were bleeding, & people were attending to them. We heard no gunshots after 10pm. I understood I saw a woman tell us that we needed to hide because shots were still being fired so we hid in the hotel there were five women in the stall including me. The women were where I could see one of them was shot in the back & she was bleeding. A others were injured. After about two hours in the stall we were told that everything was clear & we could leave so we came out on the floor of the bathroom.

We were moved to a conviction area, & I could see people who were injured & bloody. They gave us towels & offered us help, officers asked us to stay put. I called my grandson to let him know what was happening & that I was safe. They finally let us leave around two. We walked away so my coworkers we could pick us up. I can't sleep because I see the bodies on the floor & hear their screams. I hear their screams. I was so scared that I wouldn't never see my children again.

**DETAILS** On October 1<sup>st</sup> at approx 10:05 pm my fiance & I were stage left near the VIP seats on the west side of the Route 91 harvest festival when we were shot at from an unknown location. At the time of the shooting my fiance and I were in fear of our lives. After the third volley of gun shots most of the patrons laid on the ground. At that time I grabbed my fiance's hand and we ran to the East Exit near the gift shop/merchandise tent. While we were running out of venue a fourth volley of gunfire was heard. Upon exiting the Route 91 Harvest festival we ran north on 1 Miles St then east on E Penn Ave. On E Penn Ave. I observed multiple (C.S.M) victims and began assisting LVMPD & other patrons with treating and triage of victims.

DETAILS At the front of the stage @ gate. Lt side watching Jason Huare heard sounds that at first sounded like fireworks. Then we heard a lot more of the "fireworks" but tooks when we realized it was gunfire. We all got down on the ground and crawled. Then we ended up jumping the fence and hiding under the stage. Still heard lots of gunfire this entire time. We finally fled from under stage and finally ended up at the helicopter airport, where we eventually made it to UNLV.

My husband lost his iPhone under the stage (we think) If we could eventually get it back, it would be greatly appreciated.

Thank you for your help, hard work, & service,

## DETAILS:

On October 1, 2017 at approximately 10:05pm I heard what I thought was fire works. I looked around and saw nothing so I proceeded to watch the concert. Then I heard the second set of what I thought were gun shots as I saw people in the crowd falling. I hit the floor where we were scattered. I called my husband in Canada to tell him "there's someone shooting" and "I love you". I then called my mom in Manitoba and told her the same thing. I thought I heard someone yell there was a shooter in the crowd and I thought I was going to die. I could hear the shots continuing off where we were sitting. I heard the lady behind me yell I've been shot. When I think the second to last set of shots stopped I heard someone yelling get over here, run as fast as you can but stay close to the floor. As we were running I could see the bodies on the ground.

I heard people screaming all around me. The man said he was an off duty military officer here to help us escape. As we were running in between the blocks I heard another set of shots ring out. They were send us into the Tropicana. Then they sent us into a ball room after a dog fight and thorough rat down.

DETAILS near stage, left side, near 'malibu rum house' side. Heard pops, thought firecrackers, when they continued we fled behind malibu rum house and out gate. Ran until we got to Sands Aviation, while continuing to hear shooting.

Sent video captured to detective.

STATEMENT OF [REDACTED]

JH: Um, we were watching and enjoying the event, um, doing a Facebook Live right when the whole thing started to go down. Sounded like firecrackers so - in the - in our video so I was just watching. Kinda scanned around looking at it and then kinda see people ducking and a few people take off and then a few seconds later heard another burst of round and then - which sounded actually more like gunshots. And then after that we hear people screaming, "I've been shot." And then people start scattering. Um, [REDACTED] we hunkered down. Um, went through another round of bursts. Saw some people laying down beside us. [REDACTED] and I went to go assist. Um, in the manner and finding out they had already passed. Um, in the process of helping them out I was hit and injured and in the meantime that person had passed. I went - run back. Grabbed a trash can. Threw it down for my wife, [REDACTED]. We hunkered down and then the other person that [REDACTED] was helping out was no longer available so he came back and we hunkered down and then shortly after that we had an, uh, an officer - plain clothed officer - don't know her name. She said her name but we're in the spur of the moment.

TG: Mm-hm.

JH: Didn't pay much attention. Um, she helped assist her and [REDACTED] helped me assist getting out s- of the venue and the - a- by this time there was hardly anybody left in the venue but there was still shooting going on. Majority of people had exited other than the ones that hunkered down behind something or behind a fence wall and as we proceeded she was on one side and he was on the other side and we exited through the right side of the Coca-Cola VIP section.

JH: Got me out to a back fence. Um, then she said, "Are you guys okay from here?" We said yes and she took off - went back at that point. Then [REDACTED] my wife, and [REDACTED] all assisted me and we made it out farther to the road. Another cowboy guy assisted me and we got clear down to...

?: Reno and Giles?

JH: Reno and Giles. Laid there for a while, um, talking with an officer. Um, then they told us we needed to head back towards where they - the direction they came to be able to get into vehicles.

TG: Mm-hm.

JH: We get halfway back and then [REDACTED] actually stopped a truck and the truck - we got in - m- myself, [REDACTED] and - you got in too right [REDACTED]

?: [REDACTED] was in the tow.

JH: [REDACTED] got into a truck that had people already in the back. I jumped in the front. There was a lady in the backseat that had been shot in the boot- buttocks - in - in the buttocks. Um, then as we get to the hospital, um, I hobbled over to the front entrance and then I went in and was in the hospital.

**DETAILS** I was standing close to the front at the main stage with my boyfriend & sister. Front, more towards the left. Probably about 40 feet away from people getting hit. I initially sounded like firecrackers. We all paniced once it started up again and ducked to the floor. We then sprinted away. We ran at the parking lot toward the airport hanger area and hid in a building. Police took us to the hanger then the stadium. And we're waiting for the situation to be clear.
